

January 30, 2021

Dear Parents and Guardians,

I am writing to provide a weekly update regarding matters from around the District.

COVID-19 Activity Level Report: In lieu of the notification procedures implemented that announce each COVID-19 case to the community, each week the District will produce an activity level report. [HERE](#) is the report for January 30, 2021. The District manages all COVID-19 related information under the COVID-19 tab on its website inclusive of cases counts, quarantine counts, district communication and NJDOH guidance and associated reports.

Winter Weather: The District is monitoring the winter weather scheduled for our region through Tuesday and will advise accordingly Sunday evening regarding impact on District operations. In addition to snow there are also considerations with impact to utilities in the Township.

I thank you for your partnership and will communicate further District status and related updates this coming weekend.

Sincerely,

A handwritten signature in black ink, appearing to read "Brian Brotschul". The signature is written in a cursive style with some loops and flourishes.

Brian Brotschul, Ed. D.
Superintendent of Schools
